

EDUCATION

B.Tech Computer Science

Sister Nivedita University (2022 - 2026)
CGPA: 7.82 | Last SGPA: 10.0

Class 12th (Pure Science)

Techno India Group Public School (2022)
CBSE Percentage: 78.4%

Class 10th

Don Bosco School, Siliguri (2020)
ICSE Percentage: 80.6%

TECHNICAL SKILLS

Languages

JavaScript, TypeScript, Python, Java, C, C++, SQL

Frontend

HTML, CSS, Tailwind CSS, React.js, Angular.js, Three.js

Backend & DB

Node.js, MySQL, MongoDB

Tools

Pandas, Numpy, Git

EXPERIENCE & ACHIEVEMENTS

Web Development Intern

CipherByte Technologies

Completed a hands-on internship focusing on building and optimizing functional web applications.

2nd Place Winner

Sparkhack (Jadavpur University)

Secured 2nd position among 10 highly competitive participating teams in the technical hackathon.

Participant

Hack-Ur-Way (Techno Main)

Developed and successfully pitched innovative technology solutions during an intensive hackathon.

SELECTED PROJECTS

Robotic Tourist System

FINAL YEAR PROJECT

Led a team to build an ESP32-based prototype using IR/Ultrasonic sensors, speakers, and motors to automate path-following. Designed a web interface over Wi-Fi for manual and automatic path controls. Planned integration of LiDAR for future dynamic mapping.

Tech: ESP32, C++, Hardware Sensors, IoT

Listn.

listn.onrender.com ↗

Premium, minimalistic ad-free music web app (PWA supported). Features custom user profiles, liked songs, dynamic playlists with cover images, and a feature to upload songs locally.

Tech: React, Jio Saavn API, Cloudflare R2 CDN, Tailwind CSS

Mate.

mate-3x85.onrender.com ↗

A premium chess platform allowing matches against Stockfish bots (900-2800 ELO). It includes a multi-format ELO counter and an advanced Board Analysis tool equipped with move-by-move Stockfish evaluations (!/!!/?!).

Tech: React, Stockfish Engine

DesignDotIn

designdotin.netlify.app ↗

Founded a modern web design startup offering tailored packages. Architected and deployed highly optimized, responsive interfaces for Clothing, Food, Medical, and Travel sector clients.

Tech: HTML, CSS, JavaScript
